

# Battery-powered Tools

For plastic strapping

## Battery-Operated Friction-weld

The BXT2 combination tools apply polypropylene or polyester strapping, utilizing friction weld joint technology to join strap ends. Automatic weld function speeds up cycle time. The battery-operated BXT2 has a simple two-button process and ergonomic design to reduce operator fatigue.

Model	Part Number	Strap Type				Description	Applied Tension lbs.		Joint Type	Approx. Shipping Weight		# of batteries included
		Contrax		Tenax			lbs	N		lbs	kg	
		inch	mm	inch	mm							
BXT2-10	800570	3/8-1/2	9-13	3/8-1-2	9-15.9	Battery	275	1 223	Friction-weld	7.5	3.4	1
BXT2-16	428340	—	—	1/2-5/8	12.7-15.9	Battery	550	2 446	Friction-weld	8.6	3.9	2

DF-X	429220	3/8 -1-1/4	9-32	16"	58	26

Offered by Signode Parts and Service only. Available at [www.signodeparts.com](http://www.signodeparts.com).

## Pneumatic tool accessories

See Page 14 for additional fittings.

A filter-regulator-lubricator (FRL) assembly is needed with all pneumatic tools and equipment. Additional pneumatic accessories are available from Signode to help provide optimum operation. Please contact your Signode sales representative for more information on the proper fittings for your specific tool or equipment.

Note: Only use light weight air tool oil in lubricator, such as Non-fluid Oil No. L0713-54 (Part No. 008556) or equivalent. (Part No. 429130 without hose)
